Portfolio Portfolio Live

PROFILE

Computer Science graduate with a foundation in web development and programming, skilled in HTML, CSS, JavaScript fundamentals, and Python. Hands-on experience building responsive web interfaces and practical programming projects through independent learning. Interested in website development, UI implementation, and creating user-friendly digital solutions. Eager to contribute technical skills and grow within a professional development environment.

SKILLS

Programming Languages:	C++, Python (fundamentals)
Web Development:	HTML5, CSS3, JavaScript
Tools & Technologies:	Git, GitHub, Visual Studio Code
CS Fundamentals:	Object-Oriented Programming (OOP), Operating Systems, Computer Networks

PROJECTS

Weather Application — Live Demo ↗

Tech Stack: HTML5, CSS3, JavaScript

- Built a weather application that displays weather information through a clean, user-friendly interface.
- Structured and styled the UI with HTML5 and CSS3, applying JavaScript to handle user interaction and dynamic content.
- Strengthened frontend and JavaScript fundamentals through end-to-end development of the app.

Personal Portfolio Website — Live Demo ↗

Tech Stack: HTML5, CSS3

- Designed and deployed a personal portfolio on GitHub Pages to showcase projects and technical skills to recruiters.
- Applied layout and styling techniques to present content clearly and consistently across screen sizes.

File Organizer — CLI Automation

Tech Stack: Python, OS Module, File Handling

- Developed a Python tool that automatically sorts files into folders by file extension, removing the need for manual organization.
- Implemented file-handling and directory-management logic using the OS module to create folders and move files programmatically.
- Reduced repetitive file-sorting work by automating the entire process in a single script run.

Rock Paper Scissors Game — CLI Game

Tech Stack: Python, Random Module, Conditional Statements

- Developed an interactive command-line game with user input and randomized computer choices.
- Implemented conditional game logic to determine winners and handle win, loss, and tie outcomes.
- Strengthened problem-solving skills through program logic, user interaction, and randomization.

EDUCATION

B.Tech – Computer Science & Engineering — **2026 | 78.3%**
HMR Institute of Technology & Management (GGSIPU), Delhi

Class XII (CBSE) — **2022 | 73.10%**
Gagan Bharti Public School, New Delhi

Class X (CBSE) — **2020 | 83.40%**
Gagan Bharti Public School, New Delhi

CERTIFICATIONS & COURSES

- **SAP ABAP Developer Course** – Currently pursuing (In Progress)
- **IBM SkillsBuild – Cybersecurity Fundamentals** (February 2026) | Credential ID: ILB-DNRPWDGQGMMY7GGD
